

CertainTeed

# 2013 Siding Collection

Vinyl & Polymer Siding

Welcome to the Siding Collection.

For more than 100 years, homeowners and building professionals have trusted CertainTeed for the highest quality building products, and continually setting the standards for exciting innovations in style and performance.

Today, that spirit of innovation comes to life in the CertainTeed Siding Collection – an exceptional selection of siding products offering the industry's broadest choice of options in materials, styles, colors and performance options. With superior beauty, quality and durability, CertainTeed siding is ideal for any siding project, and the perfect complement to products that transform outdoor areas into open-air Living Spaces™.

**CERTAINTEED:  
LEADING WITH  
MATERIALS, STYLES AND  
COLORS FOR THE PERFECT**

The comforts of home are no longer defined by four walls. Outside living spaces are “in” as porches, yards and gardens are transformed into beautiful open-air rooms. If you’re longing for the joys of fresh air living, CertainTeed can help. Our Living Spaces exterior products suite, including siding, soffit and accessories, porch, decking, railing and fence products, offers everything you need to create and define your own great outdoors.

CertainTeed’s long-standing commitment to innovation, quality and service is firmly rooted in our founding philosophy of “Quality made Certain, Satisfaction Guaranteed.” It’s a promise we take as seriously today as we did a century ago.

# OVERVIEW

CertainTeed is the acknowledged leader in vinyl & polymer siding, setting the standard for the industry. As such, we take seriously our commitment to continue to provide innovative, quality products from a company of proven trust.

## First In Brand Use

Year after year, CertainTeed Siding has been Rated #1 in Brand Use by remodelers, builders, architects and consumers.

Start exploring preset color combinations and create your own custom exterior with on-line, interactive tools, designed to help you "Visualize Your Home".

Start now at [certainteed.com/colortools](http://certainteed.com/colortools)

## First In Color With Lifetime Fade Protection

CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities. Utilizing the PermaColor™ System – a blend of our own Certavin™ resin, superior micro-ingredients and state-of-the-art pigment chemistry – CertainTeed guarantees Lifetime Fade Protection on our vinyl siding, as well as impact resistance and durability. With CertainTeed siding, you'll never need to paint and you can rest assured that your home will stay beautiful for years to come.

## First In Style

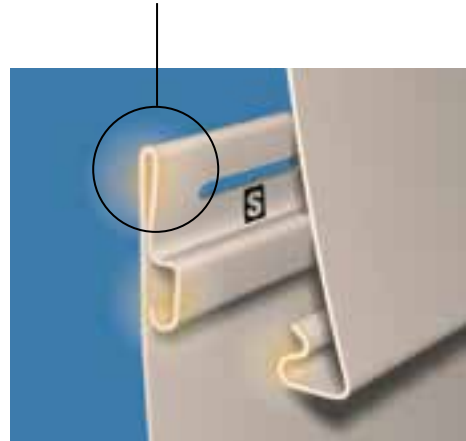

CertainTeed siding is available in a wide choice of styles that complements any architectural design. Each has a unique look based on designs common to diverse geographic areas and historical periods.

CertainTeed was the first to produce siding utilizing a direct transfer system from real cedar boards for natural TrueTexture™ finishes. Combined with CertainTeed's Vinyl Carpentry® and Restoration Millwork®, the look of true wood craftsmanship can be created with siding and decorative trim products.

## First In Performance

CertainTeed siding was the first design to perform under high wind conditions through proprietary RigidForm™ technology. The concept is based on a rolled-over nail hem design that creates a reinforcing spine.

## First In Life Cycle Leadership

CertainTeed believes a product's environmental performance should not be a mystery. CertainTeed is the first siding producer to submit their Life Cycle Analysis data to be reviewed, approved, and implemented by the National Institute of Standards and Technology (NIST).

The Building for Economic and Environmental Sustainability (BEES)

on-line product evaluation program allows remodelers, builders, architects, and homeowners to evaluate any building product's environmental performance. For more information, go to [www.certainteed.com/LCA](http://www.certainteed.com/LCA).

This NAHB Research Center Green Approved mark is your assurance that a product is eligible for points toward National Green Building Certification. Visit [www.GreenApprovedProducts.com](http://www.GreenApprovedProducts.com) for more details.

## First In Installation Innovation

CertainTeed is the only siding engineered to include an integral installation guide on each panel. The patented **STUDfinder™** Installation System is designed to help ensure a precise installation for optimum siding performance.

### Protection Against Hidden Dangers

Precise installation contributes to wind load performance, and helps avoid nailing into anything located between the studs, like plumbing or wiring, that could create a number of dangers.

Possible outcome without STUDfinder

### Accuracy and Quality

STUDfinder is engineered to align nail slots precisely with construction standards, with indicator letters centered under each nail slot to make it easy to locate studs and help ensure accuracy.

With STUDfinder

## First Complete Wall System

CertaWall Weather Deterrence System delivers energy efficiency and long-term performance. A key component in the system, CertaWrap Weather Resistant Barrier helps assure long-term satisfaction.

### CertaWrap and STUDfinder

Builders and remodelers have come to rely on CertainTeed's STUDfinder Installation System. This innovative guide to accurate installation is an important value-added advantage of CertaWrap Weather Resistant Barrier.

### Precise Installation Made Easy

The patented STUDfinder Installation System is engineered to help align attachment points with construction standards, indicating the correct placement of nails or staples with studs. The STUDfinder location guide is printed directly onto the CertaWrap material. Installers simply need to follow the guide to assure an accurate installation.

**THE NATURAL LOOK  
OF CEDAR SHINGLES**

Siding: Double 7" Straight Edge Perfection Shingles in spruce.  
Trim: Vinyl Carpentry® & Restoration Millwork®.

Designed for whole house applications or accents,  
**Cedar Impressions®** offers natural looking cedar shingle siding  
 without the expense and heavy maintenance of wood.

## The Ultimate in Beauty and Performance

- ◆ Six classic styles:
  - Triple 5" Straight Edge Perfection Shingles
  - Double 7" Straight Edge Perfection Shingles
  - Double 7" Staggered Perfection Shingles
  - Double 7" Straight Edge Rough-Split Shakes
  - Double 9" Staggered Rough-Split Shakes
  - Double 6-1/4" Half-Round Shingles
- ◆ Patented PanelThermometer™ for precise installation.
- ◆ TrueTexture™ finish molded from real cedar shingles.
- ◆ Designed and tested to withstand hurricane force winds.
- ◆ Made of injection molded, durable polymer.
- ◆ Perfection and Half-Round Shingles are .100" thick with 3/4" panel projection.
- ◆ Rough-Split Shakes are .125" thick with 1" panel projection.
- ◆ Molded Perimeter Lock™ helps create a virtually seamless appearance.
- ◆ 30 low-gloss colors with a wide variety of coordinating trim.
- ◆ Virtually maintenance free, never needs painting.
- ◆ Lifetime limited warranty.

## TrueTexture™ Finish

Molded from real cedar shingles.

### Distinctive Exteriors

Northwoods can be combined with other CertainTeed siding styles, textures and shapes – an ideal option for creating accent areas or highlighting special architectural features.

Monogram Double 5" Dutchlap in savannah wicker and Northwoods Single 7" Straight Edge Rough-Split Shakes in savannah wicker and autumn red.

### Northwoods... Beauty Without the Work

Better than wood, Northwoods keeps its natural look for many years.

Never requires painting or costly upkeep.

Won't rot, crack or split like wood can.

# CedarBoards™

Insulated Siding

**THE PERFECT BALANCE  
OF BEAUTY AND  
PERFORMANCE.**

**Siding:** CedarBoards Double 6" Clapboard in arbor blend with Cedar Impressions Double 7" Staggered Perfection in natural clay.  
**Trim:** Vinyl Carpentry® & Restoration Millwork®.

**CedarBoards™ Insulated Siding provides the added strength and thermal benefit of rigid foam insulation with easy maintenance.**

- ◆ Five traditional styles:  
 Double 6" Rough Cedar Clapboard - R-2.2  
 Single 7" Rough Cedar Clapboard - R-2.0  
 Double 4" Rough Cedar Clapboard - R-2.0  
 Double 4-1/2" Rough Cedar Dutchlap - R-2.3  
 Single 12" Rough Cedar Board & Batten - R-2.7
- ◆ Custom contoured foam provides strength and rigidity for outstanding impact resistance.
- ◆ Can increase overall thermal performance, helping to reduce heating and cooling costs.
- ◆ Reduces air infiltration to inhibit drafts.
- ◆ Absorbs sound for reduced exterior noise infiltration.
- ◆ Compensates for minor wall imperfections.
- ◆ Insulation treated with fire retardant and insect repellent – contains no ozone-depleting chemicals.
- ◆ TrueTexture™ rough cedar finish molded from real cedar boards.
- ◆ Patented STUDfinder™ is designed for accurate and secure installation.
- ◆ Designed and tested to withstand hurricane force winds.
- ◆ DuraLock® post-formed lock design.
- ◆ 19 low-gloss colors with a wide variety of coordinating trim.
- ◆ 1-1/4" panel projection.
- ◆ .044" thickness (D6, S7, D4, D4-1/2)  
.052" thickness (S12)
- ◆ Virtually maintenance free, never needs painting.
- ◆ Lifetime limited warranty.
- ◆ Double 6" and Single 7" works with CedarBoards™ XL longer length siding.
- ◆ Recycled content for resource efficiency: CertainTeed CedarBoards D6 Insulated Siding (contains 60% recycled content) decreasing the consumption of natural resources and qualifying for LEED and NAHB credits.

**Double 6" Clapboard – 60% Recycled Content**  
 Contributes towards LEED and NAHB Green Building Standards

**Accessories**

# Board & Batten

Siding: Board & Batten and Cedar Impressions  
Double 7" Straight Edge Perfection in granite gray.  
Trim: Vinyl Carpentry® & Restoration Millwork®.

## THE TRADITIONAL LOOK OF ALTERNATING WIDE AND NARROW CEDAR BOARDS

Board & Batten vertical siding recreates the historic charm and rustic cedar look of a centuries-old siding style originally applied to log-built homes, barns and other early American structures.

- ◆ Ideal for whole house or accent applications.
- ◆ 6-1/2" board with a 1-1/2" batten creates an 8" wide panel with the widest vinyl board span.
- ◆ Flat face board design results in a straight, even surface.
- ◆ Straight-edged battens for a sharp, carpentered look.
- ◆ 1/2" batten height.
- ◆ Available in two convenient lengths: 12'6" or 10'.
- ◆ 12'6" panels are 2'6" longer than competitive panels, offering installation and aesthetic advantages.
- ◆ TrueTexture™ rough cedar finish molded from real cedar boards.
- ◆ 12 low-gloss colors with a wide variety of coordinating trim.
- ◆ .048" premium thickness.
- ◆ Virtually maintenance free, never needs painting.
- ◆ Class 1(A) fire rating.
- ◆ Lifetime limited warranty.

### Sharp Batten Edge

The straight-edged design of the batten creates a finely crafted, real-wood look.

### Flat Face, 6-1/2" Board

CertainTeed's 6-1/2" board span is designed to have a straight, even face with a flat surface for a true cedar board appearance.

### Premium .048" Thickness

Board and Batten panels have a thickness of .048" for the ultimate in strength and durability.

### TrueTexture™ Rough Cedar Finish

Molded from real cedar boards.

Siding: Carolina Beaded in heritage cream.  
Trim: Vinyl Carpentry® & Restoration Millwork®.

**Extra Thick**

Solid or fully vented panel .044" thickness.

**Smooth Brushed Finish**

Available in 8 low-gloss, virtually maintenance-free colors.

Vinyl Carpentry®  
SOFFIT & VERTICAL SIDING

Siding: Cedar Impressions Double 7" Straight Edge Perfection Shingles in buckskin.  
Soffit: Triple 3-1/3" InvisiVent in colonial white.  
Trim: Vinyl Carpentry® & Restoration Millwork®.

# TRIPLE 3-1/3" SOFFIT

Triple 3-1/3" InvisiVent® Soffit has the highest ventilation performance of any vinyl soffit available today.

## Proper Ventilation is Vital

Protection against damage to the roofing materials and structure increase comfort inside the home and energy savings.

Triple 3-1/3" InvisiVent

Triple 3-1/3" InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10" of net-free intake area.

This means that not only will InvisiVent provide a balanced ventilation system, but will do so with an overhang as short as 10".

## The Air Balance System

Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic.

This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

Triple 3-1/3" InvisiVent

Standard vented soffit

## Triple 3-1/3" Solid – Perfect for Vertical Siding Applications, Too.

Solid Triple 3-1/3" panels are the ideal solution for accent areas where a vented panel is not necessary. The flat face design creates a straighter panel with the look of smooth, painted wood. Deep dovetails between panel faces contribute extra rigidity, while forming a clear, sharp edge that is pleasing to the eye.

## All CertainTeed Soffits Feature:

- ★ Virtually maintenance free, never needs painting.
- ★ Class 1(A) fire rating.
- ★ Lifetime limited warranty.

### Triple 3-1/3"

- ◆ InvisiVent® and solid styles.†
- ◆ The only vinyl soffit to provide more than 10 inches of net-free intake area.
- ◆ Concealed intake vents provide a smooth appearance.
- ◆ Matte finish looks like freshly painted wood.
- ◆ Deep 3/4" panel projection creates sharp definition.
- ◆ 13 low-gloss colors.
- ◆ Heavy-duty .044" thickness for rigidity.

### Perimeter Triple 3-1/3"

- ✕ Solid and hidden vent styles.
- ✕ 14 low-gloss colors.
- ✕ .040" thickness.
- ✕ Hidden vent style provides up to 9.65" of net-free intake area.

### Chamfer Board™ Double 5"

- ★ Solid and fully vented soffit.
- ★ Extra thick .044" construction
- ★ Designed for vertical siding, porch ceiling and soffit application.
- ★ 8 low-gloss colors.

### Ironmax™ Double 5"

- ▲ Solid and fully vented styles.†
- ▲ Extra-thick .046" construction for optimum strength and flat face appearance.
- ▲ Designed for vertical siding, porch ceiling and soffit applications.
- ▲ Unique post-formed lock design helps ensure secure installation.
- ▲ 29 low-gloss woodgrain colors (sable brown, pacific blue, ivy green, autumn red, charcoal gray and forest for soffit applications only).
- ▲ 6.4" of net-free air per sq. ft.- fully vented.

### Beaded Triple 2"

- Wainscot style in solid and invisibly vented.†
- Designed for vertical siding, porch ceiling and soffit applications.
- Smooth finish of professionally applied paint.
- Extra-long slip-lock design helps provide secure installation.
- 8 low-gloss colors.
- .039" thickness.
- 1.6" of net-free air per sq. ft.- invisibly vented.

### Universal Triple 4"

- Solid, fully vented and center vented styles.†
- Designed for vertical siding, porch ceiling and soffit applications.
- Matte finish.
- Post-formed lock design helps provide secure installation.
- 35 low-gloss colors.
- .040" thickness.
- 5.9" of net-free air per sq.ft. - fully vented.
- 2" of net-free air per sq. ft. - center vented.

### Value Triple 4" & Double 5" Soffit

\* DELUXE COLORS

\*\* PREMIUM COLORS

**PERIMETER™ TRIPLE 3-1/3"**

Perimeter Triple 3-1/3" offers a smooth, flat surface and provides the perfect balance of aesthetics and performance.

**IRONMAX™ DOUBLE 5"**

Combines the attractive appeal of wood with the rigidity and durability of premium extra-thick vinyl.

**BEADED TRIPLE 2"**

The classic appearance of wainscoting, offers the look of fine detailing and craftsmanship.

**UNIVERSAL TRIPLE 4"**

Beautifies the overhangs of any home and delivers outstanding performance, quality and durability.

Create dry patio space under the deck and extend usable living space with a patio, screened porch or hot-tub retreat around the home.

Custom Restoration Millwork® columns and brackets, combined with the UnderShield Ceiling System, creates a formal yet inviting area.

Under the deck is a perfect area for storage of frequently used outdoor toys, lawn and garden equipment and more.

## WATER DIVERSION SYSTEM

UnderShield turns an unsightly deck underside into a dry, beautiful ceiling, creating limitless options for new exterior living spaces.

### New Possibilities for the Home

A beautiful deck is easy to love, from the top. Now, you can love your deck from underneath as well, with the beautiful possibilities of UnderShield™.

A unique, vinyl shield and ceiling system designed to respond to the needs of building professionals and homeowners, UnderShield is easy to install to new or existing decks, and will maintain unobstructed air flow when properly installed. Panels can run parallel or perpendicular to the home, and an easy-to-use clip creates the desired pitch.

Savannah Wicker

Sterling Gray

Colonial White

**B** Clip System comes with all stainless steel hardware (not shown)

**C** Vinyl Grid System

UnderShield is available in beaded or chamfer panels (A). System also includes clips (B), grid system (C), fascia panels and stainless steel hardware (not shown).

**A**

- ◆ Low maintenance water diversion system.
- ◆ Easy to install adjustable grid system.
- ◆ Concealed clip system.
- ◆ Stainless steel hardware provides security and lasting performance.
- ◆ High quality vinyl panels.
- ◆ Available in 6" x 16' panels.
- ◆ Choice of 2 panel styles and 3 colors.
- ◆ Suitable for 1 and 2-story residential applications.
- ◆ Lifetime limited warranty.

### Dry by Design

UnderShield is dry by design, incorporating a special shield with channels that discreetly collect and drain precipitation away from under your deck, leaving the space beneath dry and comfortable.

As precipitation drips between deck boards it is collected directly below by UnderShield and diverted away leaving a dry space under your deck. (Gutter sold separately. Not a CertainTeed product.)

# Decorative Trim

## Restoration Millwork®—The Ultimate Finish!

With Restoration Millwork, CertainTeed offers solutions that meet the needs of both professionals and homeowners.

Restoration Millwork trim makes a statement of authenticity on any home's exterior; it cuts, mills, shapes and routes like the finest top-grade lumber. But, because it's made from cellular PVC, Restoration Millwork will outlast wood.

Whether you choose to work with a traditional or specialty profile, Smooth or TrueTexture™ finish, install in Natural White or paint\* another color, Restoration Millwork is made to enhance any vinyl, wood, stucco, fiber cement, brick and stone siding.

- ◆ Superior quality and excellent dimensional accuracy.
- ◆ Low-maintenance and long-lasting U-V resistant material.
- ◆ Natural White and ready to install.
- ◆ Can be painted to complement with exterior colors.
- ◆ Cuts and mills with traditional woodworking tools.
- ◆ Class A (Class 1) Flame Spread Classification.
- ◆ Meets ICC and CCMC code requirements.
- ◆ Made in U.S.A.
- ◆ Contains recycled content.
- ◆ 25-year limited warranty.

\*See Installation Guidelines RM003 for painting instructions.

### Superior Performance

Low maintenance and no worries about rotting, warping, moisture or insects.

### Versatility

Available in sheets and decorative trim for custom creations or pre-made products for easy installation.

TrueTexture  
Finish

Smooth  
Finish

### Custom Colors

Can be easily painted with Sherwin-Williams VinylSafe™ paint colors\*\* to complement with all exterior siding colors.

\*\*Sherwin-Williams VinylSafe Technology colors must be used when choosing darker colors that have a Light Reflecting Value (LRV) of 54 or lower.

For colors with a LRV of 55 or higher (the higher the LRV, the lighter the color), you can safely use an acrylic latex paint.

BRICKMOULD    J-CHANNEL BRICKMOULD    BACK BAND    ADJUSTABLE BACK BAND    BASE CAP    356 CASING AND RB3 CASING    QUARTER ROUND    COVE MOULDING

SHINGLE MOULD    BED MOULD    INSIDE CORNERS    RAKE AND RAMS CROWN    SILL    SILL NOSE    LATTICE    HISTORIC SILL

All trimboards, sheets and one-piece corners are available in smooth and woodgrain.

**Corners with Flange**

Designed to be installed quickly and easily, now attach corners by securing the flange directly – avoiding any face nailing of the corner.

- ◆ Hidden attachment points
- ◆ Secures tightly to wall with screws
- ◆ Installs before siding
- ◆ Corners can still be used without flange

**Fiber Cement Skirtboard with patent-pending DualStart® Design**

Sets the first course for fiber cement siding installation and can contact the ground without needing modifications. Also works as a transition board between siding styles.

Beadboard with TightLap™

**Beadboard with TightLap™**

Whether you choose 2TL or 3TL, Beadboard with TightLap delivers better hold with a larger concealed nailing area, and sturdy tongue and groove connections.

3TL Beadboard – a full 1/3 wider for faster coverage.

**RESTORATION MILLWORK®**  
Exterior Trim

Restoration Millwork is made from cellular PVC and is unsurpassed in its workability — no special woodworking tools are needed.

## THE PERFECT BALANCE BETWEEN WATER HOLDOUT AND BREATHABILITY

CertaWrap Weather Resistant Barrier provides an added layer of protection against air and moisture damage. It's part of the complete CertaWall Weather Deterrence System™.

- ◆ The complete CertaWall Weather Deterrence System.
- ◆ The best defense against mold, mildew and water damage.
- ◆ Superior air holdout for better energy efficiency.
- ◆ Optimal Permeance Rating of 11.7.
- ◆ Outstanding UV performance.
- ◆ Excellent surfactant resistance.
- ◆ Double-strength tear resistance.
- ◆ Easy handling and installation with STUDfinder™.
- ◆ Lifetime limited warranty.

### CertaWall Technology

Beauty is more than skin deep. That's especially true when it comes to building or improving a home. Protection from the elements, energy efficiency and long-term performance are just as important as aesthetics. The CertaWall Weather Deterrence System delivers those advantages. As a key component in the system, CertaWrap Weather Resistant Barrier helps assure long-term satisfaction.

### The CertaWall Weather Deterrence System

CertaWrap is available in the following roll dimensions:

3' x 100'	9' x 100'	10' x 100'
4.5' x 200'	9' x 150'	10' x 150'

### CertaWrap Performance Superior Breathability, Water Resistance and Vapor Transmission

Mold, mildew and water damage are a home's worst enemies. An effective weather barrier system defends against these problems by resisting moisture penetration and air infiltration while allowing water vapor to dissipate. CertainTeed CertaWrap offers the industry's best combination of all of these properties, helping you defend against moisture and the elements during construction, and preventing moisture buildup – from inside and outside the home – after cladding is applied.

**CertainTeed products are designed to work together and complement each other in color and style to give your home a beautiful finished look.**
